

T2C timesheet 2competence

A time-served route to competency

easy setup

scalable

integrated

secure

www.comaea.com

What is T2C?

Timesheet 2 Competency is a way of **automating** the calculation of a person's skill level.

What is T2C?

Since timesheets are already generated by **operational staff** we can utilise these to work out how much **experience** and **competency** someone has in a particular area.

What is T2C?

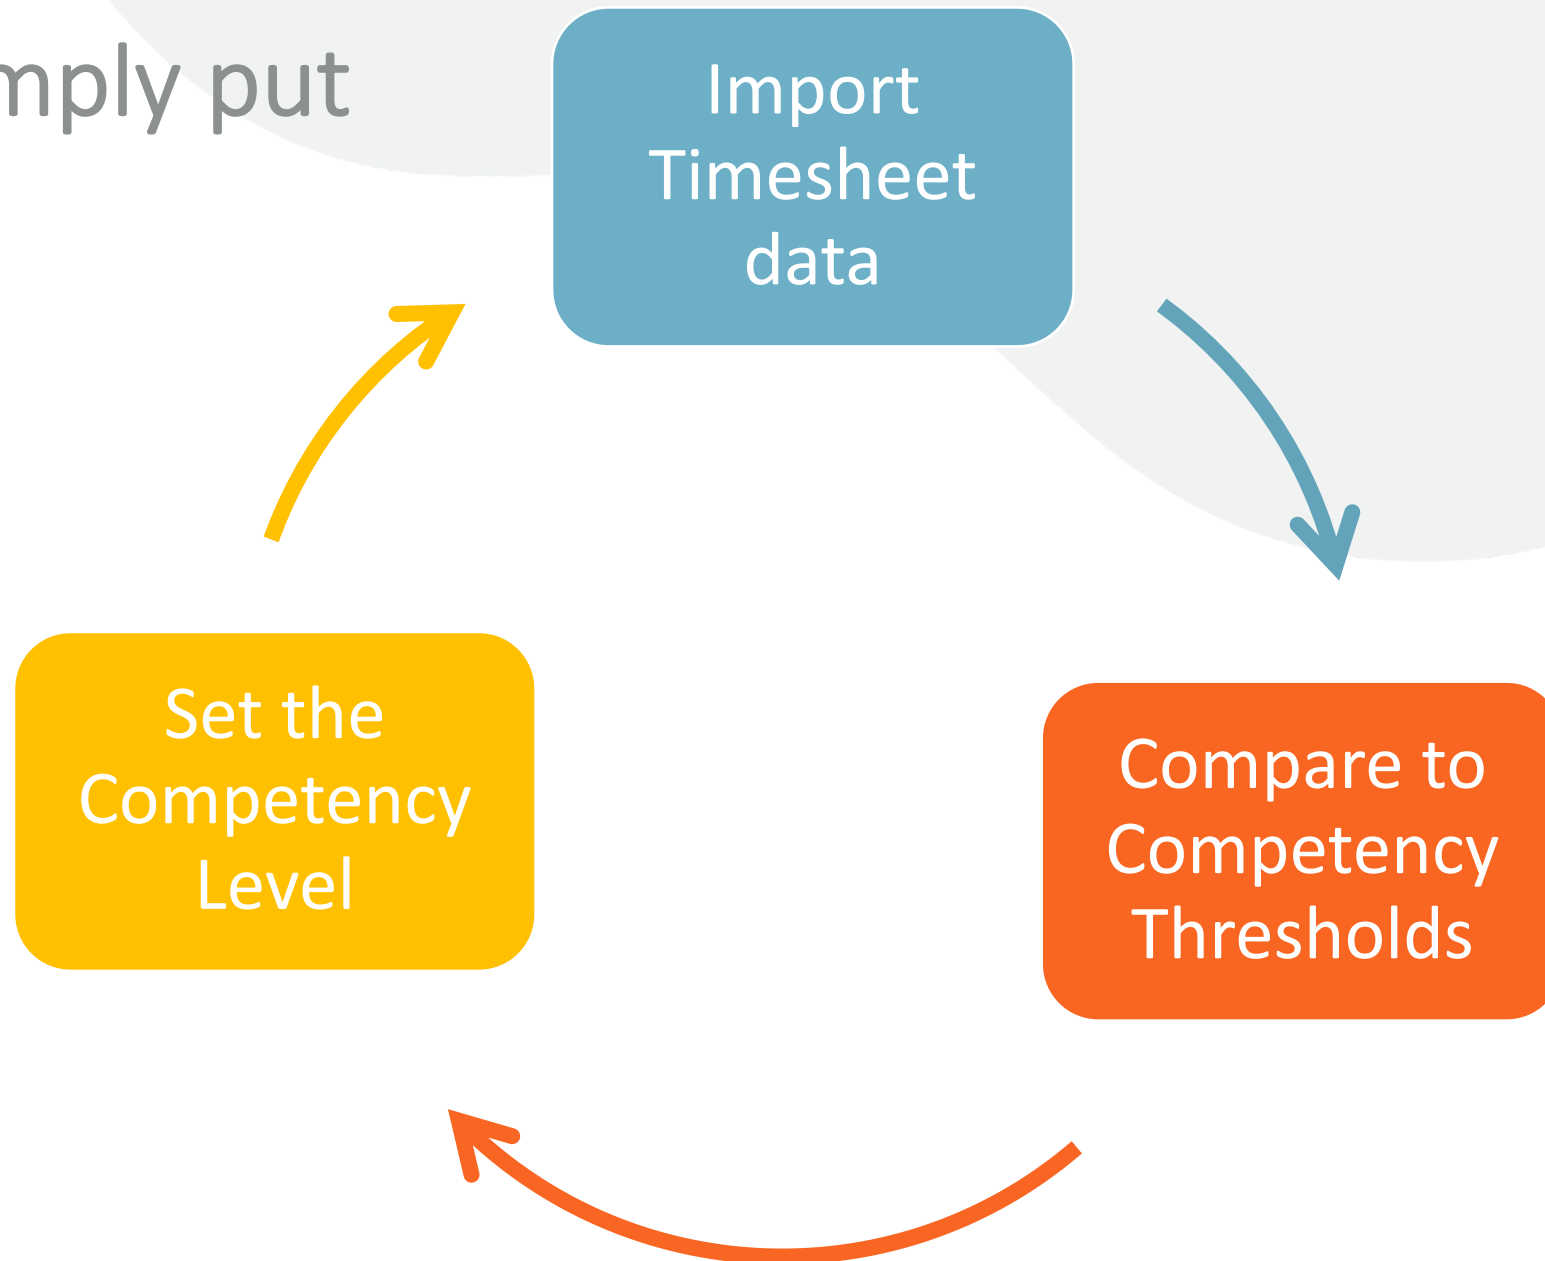

By **setting thresholds** for competency levels we can compare time served or number of jobs to identify if a person has **met the requirements** for that competency level.

What is T2C?

Organisations can then quickly identify if a person is **experienced** and **competent** in a particular area and make **informed decisions** on resourcing and development.

T2C simply put

In this example, competency is calculated for a person in each Asset (equipment) Group.

TITLE	GUIDE	EMPLOYEE'S LEVEL	APPROVED LEVEL	COMMENTS	EMPLOYEE UPDATED	APPROVER UPDATED
Asset Group Competency Framework - Fitters						
AC Air Compressor		1 2 3 4 5	1 2 3 4 5 ✕		2 Feb 2023	2 Feb 2023

Comprehensive reporting is available including jobs by Organisation unit, teams and individuals

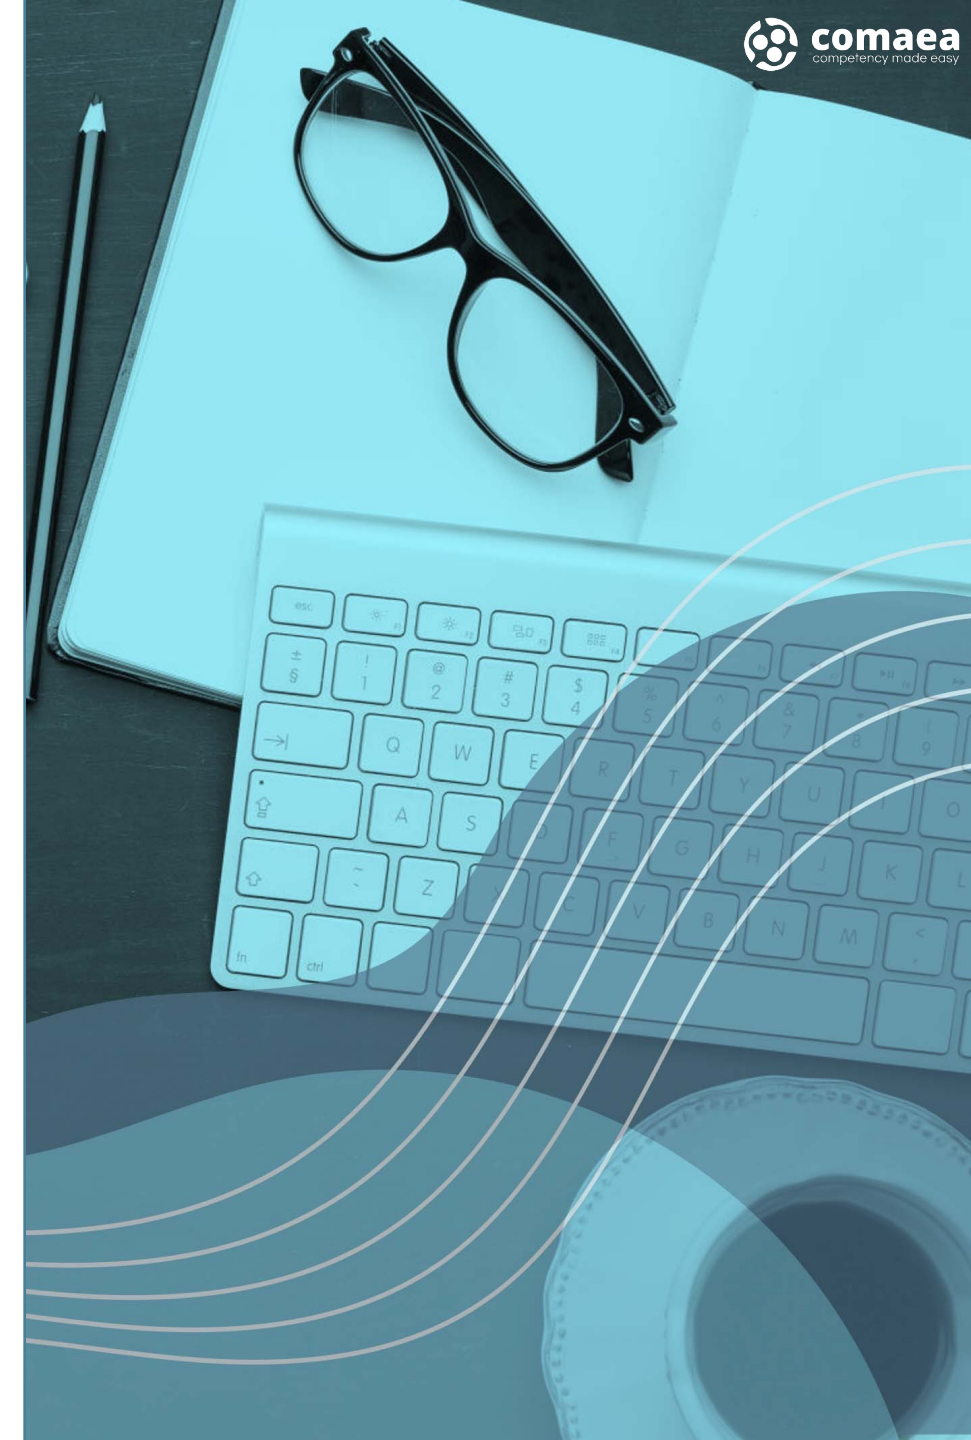

And a heat map of
where the skills
and experience
are

Specifications

Timesheet data import frequency	Daily, Weekly, Monthly or ad-hoc
# of Competency frameworks	unlimited
# of Competency groups	unlimited
# of Job Roles	unlimited
Job Level Requirements	Able to set for each role
Threshold settings	by hours, or by jobs, for each competency
Competency Validity Period	flexible number of months (i.e. 36 months, 60 months)
Competency levels	Up to 10
Size of workforce	Unlimited
IT infrastructure required	None, cloud-based SaaS
Reporting	Comprehensive People analytics
Security	ISO27001, secured and encrypted.
